iSchool is an app that lets you learn at the rate you want to. If your class is moving at to slow of a pace then you can use this to learn what you want. Scout entered school and was really bored because she already knew everything the teacher was teaching. This app would have helped her to go ahead and learn at the pace she wanted to.

## Mind Reader

[Home](#)[View More By This Developer](#)

Open iTunes to buy and download apps.

### Description

Mind reader is an app that tells the personality and feelings of a desired person. It tells you if they are mean, nice, funny etc. and also tells you if they are happy, sad, excited etc. If scout had used this app she would have been able to tell from the beginning if Boo Radley was crazy or if he was actually nice. Some of the things that happened to her would not of had to happen if she had been using this app.

### Description

Flashlight is an app that brightens an area up to a certain distance. This app would have been very useful to Scout a few times. She could have used it when they were running away from Boo Radley's house. She could have used it to see better in front of them while trying to get away from Mr. Radley. Another time it would have been useful is when Mr. Ewell was following them on the way back from the play Scout was in. Scout could have used it to see who was there when they first heard the noise and they would have been able to get away before anything happened.

### Description

Forgetful is for the times you accidentally leave things behind. You put in to the app everything you have with you so when you are leaving if you have forgotten anything it will alert you that something is missing.

Scout could have used this to make sure she did not forget her shoes at the play. If she had not forgotten them she would be able to run better when Bob Ewell was chasing them.

## Lie Detector

[Home](#)[View More By This Developer](#)

Open iTunes to buy and download apps.

### Description

Lie detector is self explanatory it tells if the person is lying or telling the truth. When the person is talking you hold down the button and let go when they are done talking. If the screen turns red it is a lie and if it turns green then it is the truth. Scout could have used this by giving it to Atticus to tell if Bob Ewell was lying about if he abused or raped Mayella. This could have helped Tom Robinson be set free.

### Description

This app can pretty much tell you how to do anything. If you need help fixing a car it tells you what parts you need etc. Whatever you need done but don't know exactly how to do it, it can tell you how. Scout could have used this to know how to be more ladylike. It would help her know what kind of clothes to wear and the way she talks.

## Fitting In

[Home](#)[View More By This Developer](#)

Open iTunes to buy and download apps.

### Description

This app helps people know how to fit in better. If you need to impress people or just need to be in a group this app can help you. It can tell how you need to act and the things you need to wear to impress the people you are with. This app would have helped scout by helping her fit in with Jem and Dill. It could have told her how to act like them so they would think she was cool enough to hang out with them.

## No Troubles

[Home](#)[View More By This Developer](#)

Open iTunes to buy and download apps.

### Description

This app helps people come up with excuses and other ways for people to get out of trouble. If you need a lie you can go under the lie section and then type in what you need a lie for. After this it will give you a whole list of lies to use. Scout could have used this so she would not get in trouble with Atticus. If she comes home late or does anything else bad like going into Boo's backyard she can already have a list of excuses ready.

## Snowmen

[Home](#)[View More By This Developer](#)

Open iTunes to buy and download apps.

### Description

This app tells people the kinds of things they can do when it snows. It tells how to make snowballs, snow angles, snowmen, and even thing to do indoors when it snows. It shows how much how much snow you need and how to shape it right. Scout could have used this when she and Jem made a snowman on the day it snowed. They would have known how to make the snowman without all the dirt in.

## Alarm

[Home](#)[View More By This Developer](#)

Open iTunes to buy and download apps.

### Description

This app helps you know when it's time to go somewhere or wake up or just about anything else you need to remember to do. You type in what time you are going to do something and it lets you know when it's time. This app would have helped Scout wake up before the play started. This way she would not have just walked onto the stage during the play.
